1. Introduction

This document serves as a User Guide for the Nuclear Regulatory Commission (NRC) external partners that have a need to use NRC's secure web based applications. More specifically, it describes the process through which an applicant can replace a lost, stolen or damaged Level 3 One Time Password (OTP) digital credential using NRC's web based External Credentialing Service.

Once the applicant has obtained a replacement digital credential, it can be used to access NRC's secure web based applications directly over the Internet.

2. Credential Replacement Process

This section takes the credential holder through the NRC web based External Credentialing Service website for the purposes of replacing a Level 3 One Time Password (OTP) digital credential. It assumes that the applicant has completed the credential enrollment step and previously activated that credential. Each necessary screen is captured with an explanation of what the credential holder is to comply with on each screen.

1. Use the Microsoft Internet Explorer web browser to go to the NRC's External Credentialing Service website (<https://pki.nrc.gov/ExternalCredentialingService/>). Login using the username provided in the Final Approval email depicted above and the password you established during the enrollment process.

Dear Montgomery Burns,

Congratulations! Your request for a NRC One Time Password - Mobile Token digital credential has been approved by the NRC!

Please note that your login for the NRC External Credential Service is [REDACTED]. Please use the password selected by you during the initial request submission

Next:

1. Within the next 7 business days, you will receive a mailer containing an activation code and the OTP credential at your personal address of record.
2. If you opted for a hardware OTP credential, you will receive the credential with the mailer.
3. If you opted for a mobile OTP credential, please visit [VIP Access](#) to download your mobile OTP credential.
4. Once you are in possession of the mailer, please visit our website [NRC External Credential Service](#) to register and activate your OTP token.
5. Once your token has been registered you will be able to access the NRC application to which you requested access.

If you have any questions, please contact the appropriate Support Center for your NRC application:
Integrated Source Management Portofolio (ISMP) - Email: ISMPHelp.Resource@nrc.gov Telephone: [1-877-671-6787](tel:1-877-671-6787)

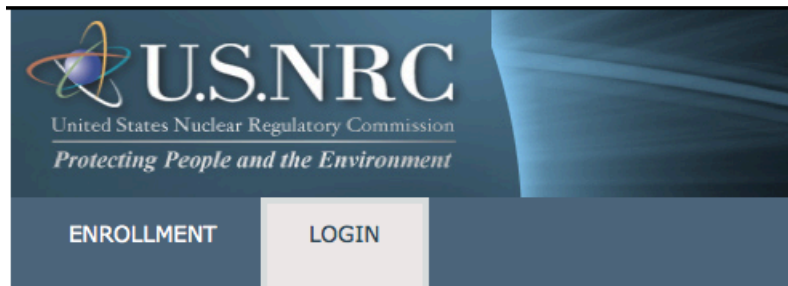

Note: This is an auto-generated email from the NRC External Credentialing Service. Please do not reply to this email.

Thank you,

NRC Identity, Credential, and Access Management Services

NRC Level 3 OTP Credential Replacement Guide

Access your NRC External Credential Service account
